# 1. Summary

We are the Orphan and Helpless Children Development Society, widely known as Mountain Children Home (MCH), a sanctuary for orphaned and helpless children located in the tranquil surroundings of Shivapuri National Park in Kathmandu, Nepal. Since our founding in 2002 AD, we have been dedicated to providing care, shelter, and opportunities for over three dozen children from all across the country. At MCH, we are more than just an institution; we are a family that values every child's unique creativity, opinions, and dreams.

We actively engage with our children, regularly discussing the challenges they face and exploring ways to help them thrive both personally and academically. This child-centred approach ensures that each child feels heard and supported in their individual journey. In addition, we frequently hold community discussions that focus on sustainably enhancing our home environment, making it more conducive to the overall development and growth of the children.

Mountain Children Home is working towards full compliance with the Government of Nepal's guidelines for orphanages. However, we currently lack the infrastructure required to meet these regulations, which mandate earthquake-resistant buildings, separate living spaces for boys and girls, comfortable rooms, and adequate toilets and bathrooms. At present, our facilities fall short in these areas, and we are also without a secure compound or proper playground, both of which are essential for creating a safe and supportive environment for the children. Upgrading our infrastructure to meet these standards is a critical priority as we strive to provide the best possible care for the children.

After closely evaluating government policies and understanding the personal experiences of our children, we have developed a proposal that aligns with several United Nations Sustainable Development Goals (SDGs). At the core of our mission is SDG 4: Quality Education, where we provide access to quality education and resources, ensuring that every child has the opportunity to succeed academically and personally. Additionally, we emphasize SDG 3: Good Health and Well-being by creating a safe, clean, and supportive environment that promotes the physical

and mental health of the children. Our commitment to SDG 11: Sustainable Cities and Communities is reflected in our efforts to maintain earthquake-resistant infrastructure and adopt sustainable practices, ensuring the long-term safety of our home.

We also strongly support SDG 5: Gender Equality by ensuring separate living spaces and facilities for boys and girls, respecting their unique needs. In line with SDG 7: Affordable and Clean Energy, we are exploring

renewable energy options to reduce our environmental impact and educate the children about sustainable living. Our governance reflects SDG 16: Peace, Justice, and Strong Institutions, where we maintain ethical, transparent management and create a safe, inclusive, and fair environment. Furthermore, we prioritize SDG 6: Clean Water and Sanitation, ensuring access to clean water and proper hygiene facilities to safeguard the children's health. Lastly, we address SDG 9: Industry, Innovation, and Infrastructure by focusing on resilient infrastructure that supports the children's present and future needs.

Through this comprehensive approach, Mountain Children Home is committed not only to meeting the immediate needs of our children but also to preparing them for a sustainable and brighter future. Our mission is to create an environment where every child can grow, learn, and dream—knowing they are valued, supported, and empowered.

## 2. Background

Nepal, a landlocked country with diverse terrain, is home to around 30 million people. Its varied landscape with towering mountains and deep valleys presents countless challenges, including frequent natural disasters. These disasters, ranging from earthquakes to landslides, often result in tragic loss of life and property, leaving behind orphaned and abandoned children. The high levels of child abandonment stem from death of parents, poverty, sickness, parents remarrying, and poor living conditions. Similarly, these earthquakes devastate people's livelihoods, leaving those already in poverty in even more challenging circumstances. As a result, many give up their children as they cannot afford to support them. Furthermore, if people do survive these devastating earthquakes, they are often left with life-changing injuries and illnesses. Therefore, rendered unable to care for a child, meaning that more children are being deserted due to the detrimental effect of the environment. The latest data shows that the total number of orphan children is 9 percent of the total population of Nepal, i.e. 1 million.

Orphan and Helpless Children Development Society known as Mountain Children Home (MCH) is a safe place for children in need. Located in Kathmandu, Budhanilkantha-5 Dadagaun, Nepal.

MCH is a non-profit welfare organisation officially registered with the Government of Nepal and affiliated with the Social Welfare Council (Affiliation Number: 14106) since 2002.

MCH is committed to providing a loving home, quality education, healthcare, vocational training and much

more to children. Currently 37 children are under our care and the orphanage doesn't receive any financial support from the government and depends entirely on the generous support of our donors and volunteers. Our mission is not just to rescue children from abject poverty, but to enable the children to develop and realize their potential. We are making a great effort to give each of our children the skills they need to develop into independent, dignified citizens. However, as the impacts of climate change become more pronounced, it is crucial to ensure that our facilities and practices are resilient and sustainable. Our location is within a national park, which is beneficial for the children's connection to nature and opportunities for environmental education, but also places us at a greater risk from these natural events. The recent increase

in the frequency and intensity of such events has made it clear that we need to adopt a more sustainable and climate-resilient approach to safeguard our home and the children who depend on it.

**The Mountain Children Home:** The Climate Resilient and Environment Friendly Place project aims to address these issues by integrating sustainable practices and climate resilience measures into our operations and infrastructure. By adopting climate-resilient strategies and fostering an environment-friendly approach, we aspire to create a haven where children can grow and thrive without the constant threat of natural disasters disrupting their lives. This project will address various aspects such as infrastructure improvement, disaster preparedness, sustainable energy solutions, and community engagement, ensuring an overall approach to resilience and sustainability.

### 3. Vision

#### 3.1 Primary Vision

Our vision is to rescue and provide shelter to vulnerable children, ensuring they are safe from harm and have a place to call home. We are committed to offering a comprehensive approach that includes quality education and vocational training, preparing them for a future of independence and opportunity. We prioritize the health and well-being of every child, providing medical care, nutritious meals, and emotional support to help them heal and grow.

Parental guidance and love are at the core of our mission, creating a nurturing environment that mirrors the warmth of a family. We focus on social and recreational development, encouraging children to build strong relationships and explore their talents. Protection from substance abuse and exploitation is a key priority, ensuring every child is safeguarded from these dangers. Through sports and other extracurricular activities, we aim to foster discipline, teamwork, and confidence, equipping each child to thrive both personally and professionally.

#### 3.2 Long-term Vision

In addition to our core vision, we aim to integrate children into the broader community through the following ideas

##### i. Community Involvement:

Emphasizing the importance of including children into the larger community through partnerships with other organizations, schools/colleges and businesses. This could help them build social networks and support systems beyond the orphanage.

##### ii. Sustainability and Independency:

Incorporating sustainability into our vision by focusing on teaching children skills related to environmental management, financial literacy, and entrepreneurship. This can empower them to become self-sufficient and contribute positively to society.

### **iii. Life Skills Development:**

Including focus on life skills training, such as communication, problem solving, and critical thinking. These skills are essential for personal growth and future success.

### **iv. Alumni Support:**

Commitment to providing ongoing support for children even after they leave the orphanage. This could include mentorship programs, job placement assistance, or continued emotional support to ensure a smooth transition into adulthood.

### **v. Advocacy and Awareness:**

Positioning our orphanage as an advocate for vulnerable children, working to raise awareness about the issues they face and influencing policies that protect and uplift children in need.

### **vi. Cultural and Ethical Values:**

Emphasizing the importance of introducing cultural, ethical, and moral values in the children, helping them develop a strong sense of identity and responsibility toward their community and the world.

### **vii. Global Collaboration:**

Adding a focus on collaboration with international organizations or other orphanages, sharing best practices, and learning from global experiences to continuously improve the care and opportunities we provide.

### **viii. Digital Literacy and Technology:**

As the world becomes increasingly digital, it will be beneficial to focus on digital literacy and technology education, preparing the children for the modern workforce and enabling them to thrive in a tech-driven world.

### **ix. Mental Health Initiatives:**

While emotional support is already a part of our vision, we will further emphasize mental health initiatives, offering counselling and psychological services to ensure the children's mental well-being is prioritized.

### **x. Extension of support outside of MCH:**

As we strengthen our home, it's important to not overlook underprivileged children and families across all Nepal. While we may not be able to foster everyone, we could support them by other means like; education, food and vocational training. And to sustain the life standards we could help hone their relative skills or assist in developing one.

## 4. Needs for Mountain Children Home:

In 2010, we moved from Dallu to Dadagaun. In Dallu, the water supply was bad and irregular, with heavy pollution, and our rooms often flooded. Additionally, the rent and schooling were expensive. There were

no regular donors, so some days our founder, Ramesh Dev Sunar, had to go door to door asking for help and support. Life was challenging, and we needed a change. We soon met Bipin Karki, who told us about a place called Dadagaun. His friend ran an old school there, which was about to close due to the majority of students opting for private schools. The school building would be vacant soon. Intrigued by the idea of a better place for the children, we decided to visit Dadagaun. Bipin introduced us to Dhorje Tamang, the school principal, who showed us around. We liked the area because

it was free from pollution and noise, in contrast to the busy streets of Dallu, but we didn't have the money to move in. Dhorje Tamang generously lent us 30,000 rupees after our father approached him, allowing us to move.

He also agreed to let us stay in the school building, but its condition was poor. We were under the impression that the school was built on private land, but later discovered it was on government land. However, since the school had been operating there for many years, we didn't think much of it. Life was better than in Dallu, but managing food and transportation was still difficult as we didn't have regular donations. It was scary at first because our orphanage is inside a national park, so there's a whole wildlife ecosystem surrounding our new home. Nonetheless, we were slowly but surely adapting to our new lifestyle. On April 25, 2015, a 7.8-magnitude earthquake struck Nepal. The quake and its aftershocks affected an estimated 8 million people—more than a quarter of Nepal's population. Nearly 9,000 people lost their lives, more than 22,000 were injured, and about 750,000 houses were damaged or destroyed, including our already weak house.

We lived in tents for six months, facing many hardships with no help or support from the Nepali government. Finally, a UK-based organization, Bridge2, and Jean Francois Nicod from Switzerland helped us build a new home. Years passed as we adapted and overcame adversity, building and growing our family to 37 children. Recently, the government has said our post-earthquake building is not suitable for an orphanage. We were unaware of different government policies regarding building an orphanage, as we were not notified during the process of rebuilding our home after the devastating earthquake. The authorities claim boys and girls shouldn't be under one roof and that the rooms are not secure enough for girls. We understood and did our best to meet the standards of the ever-changing Nepali laws, but despite our efforts to partition rooms and provide separate toilets and bathrooms for the boys and girls, they claim the rooms still lack privacy and there aren't enough of them. We don't have proper documents for the land, so we reached out to the local ward office, municipality, ministry office, and national park, but we still have no response or support. The Nepal government frequently changes its policies, and there's a risk that someday they may force us to move out of the government land. Government officials have surveyed the community, expressing interest in building a children's park here.

If that happens, we'll have no choice but to leave, and all our hard work and the support from our donors will be wasted. Therefore, it would be safer to buy land first, with easy access to transportation, schools, hospitals, and water. We require about 11,000 square feet of land to build a sustainable home that also meets government policies. Urban areas could be more affordable than city centres, and that's what we're planning. We are happy to stay here but need to be prepared to leave at any moment. That's why a land for our home is a priority for us. The Mountain Children Home in Kathmandu, Nepal provides a safe and nurturing environment for 37 orphaned and abandoned children, caring for them as one joint family. However, without government support, the home heavily relies on private donations and assistance to sustain its operations and meet the diverse needs of these vulnerable children. There is a crucial need for financial support to provide essential services such as nutritious meals, quality education, healthcare, infrastructure improvement, water management, sustainable energy solutions recreational activities, and a loving home environment. Additionally, resources are required for infrastructure development, administrative expenses, legal compliance, and capacity building to ensure the orphanage can continue its vital work of rescuing, protecting, and empowering these children to reach their full potential and become independent, dignified citizens.

## 5. Targeted Children group/Selection of Children

As a responsible children organisation of Nepal, we prioritize our program to work towards diverse needs of children, with a special focus on the following groups.

### 5.1 Orphaned and Abandoned Children:

We extend our support and care to children who have lost parental care and are in need of a nurturing environment to thrive.

### 5.2 Socially Marginalized and Dalit Children:

We are committed to addressing the unique challenges faced by socially marginalized and Dalit children, ensuring their rights, dignity and access to education and healthcare.

### 5.3 Victims of Domestic Violence:

We offer a safe place and comprehensive support to children who have experienced domestic violence, empowering them to heal and rebuild their lives. Offering zero tolerance for any corporal punishment in our home.

### 5.4 Children at risk:

We identify and assist children who are at risk due to various factors such as poverty, displacement or exploitation, safeguarding their wellbeing and promoting their development.

### 5.5 Helpless and Poor Children:

For children who are in desperate situation without adequate support systems, we provide essential care, protection and pathways to a better future.

## 6. Proposed project area:

The project is planned to be undertaken at Mountain Children Home, Dadagaun, Budhanilkantha, Kathmandu, Nepal.

## 7. Project Objectives and Activities:

The primary aim of Mountain Children Home is to develop MCH into a climate-resilient and environmentally friendly place and provide quality education, healthcare, vocational training, and comprehensive support for the overall development of orphaned and abandoned children in Nepal.

The following activities will be undertaken for Sustainable development of MCH

<b><u>Objectives</u></b>	<b><u>Activities</u></b>
<b>7.1 Green Energy - Solar Smiles</b>	Install solar panels and use rechargeable batteries.
<b>7.2 Waste Management - Waste to Wealth</b>	Segregate waste, start composting, and creatively reuse materials.
<b>7.3 Awareness and Volunteering</b>	Organize cleanup drives and integrate environmental education into lessons.
<b>7.4 Conservation and Afforestation</b>	Plant native trees and involve children in tree care activities.
<b>7.5 Eco-friendly Building Improvements</b>	Use sustainable materials and implement natural ventilation and lighting.
<b>7.6 Community Involvement</b>	Partner with local environmental groups and host community events.
<b>7.7 Sustainable Agriculture</b>	Start a vegetable garden and use compost from the waste management system.
<b>7.8 E-Library and Computer room</b>	Establish a library with a collection of E-books and a computer room equipped with computers and internet access to enhance learning opportunities

## 8. PROJECT OBJECTIVES AND ACTIVITIES:

The following activities will be undertaken in caring the children in the home:

<u>Objectives</u>	<u>Activities</u>
<b>8.1 Rescue and Shelter</b>	Provide a suitable home with all necessary Facilities for children who have lost their parents or have been abandoned.
<b>8.2 Education and Training</b>	Offer quality primary and secondary education along with professional training to ensure a secure livelihood for the children.
<b>8.3 Health and Well-being</b>	Ensure access to good medical care, Health insurance and promote a happy, healthy life for the children.
<b>8.4 Parental Guidance and Love</b>	Provide emotional support and guidance, creating an environment of love and motivation.
<b>8.5 Recreation and Social Development</b>	Provide fun activities and social opportunities to entertain, help grow, and educate the children.
<b>8.6 Protection and Rights</b>	Ensure children are protected from abuse, discrimination, exploitation, and harmful substances abuse.
<b>8.7 Vocational Training</b>	Provide skill development opportunities to improve welfare and enable a livelihood for the children.
<b>8.8 Sports and Physical Activities</b>	Providing sport activities; Yoga and Meditation for physical and mental health development.

## 9. Inputs, Outputs and Needs.

The following table showcases our objectives and the necessary inputs for our desired outcome.

<b><u>Objective</u></b>	<b><u>Inputs</u></b>	<b><u>Outputs</u></b>
<b>1. Green Energy - Solar Smiles</b>	Installation of solar panels.  Acquisition of rechargeable batteries.  Infrastructure for promoting use of environment friendly energy.	Decreased electricity costs.  Increased use of renewable energy Reduced carbon footprint.  Safety (middle of jungle, wildlife), Saves time. Environment friendly, Useful in Emergency cases
<b>2. Waste Management - Waste to Wealth</b>	Waste segregation bins.  Composting equipment (bins, tools)  Materials for creative reuse (e.g., craft supplies)  Training on waste management practices.	Reduced landfill waste.  Enriched soil from composting  Creative projects from reused materials.  Increased awareness and participation in waste management.
<b>3. Awareness and Volunteering</b>	Hiring professionals to educate and train children and community.  Organization of cleanup drives.  Educational materials and programs for environmental education.  Volunteer coordination and resources.	Children will get habituated since childhood.  Cleaner local environment.  Increased environmental awareness among children and community.  Enhanced volunteer engagement and community participation.
<b>4. Conservation and Afforestation</b>	Procurement of native tree saplings.  Tools and resources for planting and care.	- Improved green cover and biodiversity.  Active participation of children in conservation efforts.

	Educational workshops on tree care.	Increased environmental responsibility among children.
<b>5. Eco-friendly Building Improvements</b>	<p>Sustainable building materials installation of natural ventilation systems.</p> <p>Implementation of natural lighting solutions.</p>	<p>Reduced energy consumption Improved indoor air quality.</p> <p>Enhanced comfort and sustainability of living spaces.</p>
<b>6. Community Involvement</b>	<p>Partnerships with local environmental groups.</p> <p>Resources for hosting community events.</p> <p>Planning and coordination for events.</p>	<p>Strengthened community ties and collaboration.</p> <p>Increased community awareness and support for environmental initiatives.</p> <p>Successful community events promoting sustainability.</p>
<b>7. Sustainable Agriculture</b>	<p>Setup of a vegetable garden.</p> <p>Compost from the waste management system.</p> <p>Gardening tools and supplies.</p> <p>Training on sustainable agriculture practices.</p>	<p>Fresh, locally grown vegetables for the orphanage.</p> <p>Improved soil quality from compost use.</p> <p>Efficiency in gardening</p> <p>Increased knowledge of sustainable agriculture among children.</p>
<b>8. Resource Conservation</b>	<p>Installation of water-saving fixtures (e.g., low-flow faucets, toilets)</p> <p>Implementation of energy-saving habits and devices.</p> <p>Awareness campaigns on resource conservation.</p>	<p>Reduced water and energy consumption.</p> <p>Lower utility bills.</p> <p>Increased awareness and adoption of conservation practices among children and staff.</p>
<b>9. E-Library and Computer Room</b>	E-Books, computers, internet access, educational software and resources.	Improved literacy and digital skills, access to a wide range of knowledge and learning resources.

## Needs

### 1. Education and Training:

- Paying for school and College fees and supplies
- Providing training programs from professionals
- Providing library facilities
- Tutors

### 2. Food

- Providing meals
- Cooking Vessels
- Supplies

### 3. Healthcare Initiatives:

- Covering medical check-ups, vaccinations, and treatments.
- Insurances
- Doctor

### 4. Clothing:

- School uniforms
- Home uniforms
- Stitching charges
- Others (bed sheets, pillow covers, underwear, slippers, blankets, coats, shirts, shoes, towels, gloves, and winter socks)

### 5. Infrastructure Development, Maintenance and Project and Programs:

- Maintaining and improving facilities.
- Repairing toilets, electronic appliances, and other household items.
- Painting the house.
- Funding health clinic programs, hygiene workshops, skill development programs, cultural exchange, education initiatives, and community gardens.

### 6. Vocational Training and Skill Development:

- Offering vocational training programs.

### 7. Recreational and Sports Facilities:

- Developing recreational areas.

<ul style="list-style-type: none"> <li>• Supplying sports equipment.</li> <li>• Supporting outings, sports events and hobbies for the kids.</li> </ul>
<p>8. <b>Administrative Expenses:</b></p> <ul style="list-style-type: none"> <li>• Covering operational costs and staff salaries.</li> <li>• Paying salaries for various staff positions.</li> </ul>
<p>9. <b>Legal and Compliance Expenses:</b></p> <ul style="list-style-type: none"> <li>• Paying for audits</li> <li>• Organisation fees, local office fees</li> <li>• Social audit meetings</li> <li>• Covering vehicle and other fees and taxes.</li> </ul>
<p>10. <b>Entertainment and Fun Activities:</b></p> <ul style="list-style-type: none"> <li>• Funding travel, food, and entertainment activities.</li> </ul>
<p>11. <b>Electrical, Communication, and Utilities:</b></p> <ul style="list-style-type: none"> <li>• Buying bulbs, paying for electricity, internet, telephone, waste management, and water bills.</li> </ul>
<p>12. <b>Festival Expenses:</b></p> <ul style="list-style-type: none"> <li>• Providing meat, clothes, and food items for celebrations.</li> </ul>
<p>13. <b>Transportation Related Expenses:</b></p> <ul style="list-style-type: none"> <li>• Paying for petrol, vehicle repairs, and maintenance.</li> </ul>
<p>14. <b>Cleaning Items:</b></p> <ul style="list-style-type: none"> <li>• Purchasing soaps, shampoos, cleaning agents, brooms, toothbrushes and other cleaning supplies</li> </ul>
<p>15. <b>Sport and Musical Instruments:</b></p> <ul style="list-style-type: none"> <li>• Purchasing sports equipment like footballs, basketballs, volleyballs, and musical instruments like guitars, flutes, and drums.</li> </ul>

## 10. Detailed Project Budget (Details in Annexure 1)

**Table 1: Project Budget**

(Exchange Rate: 1 USD = 130 NPR)

SN	Item	Estimated Cost (NPR)	Estimated Cost (USD)
<b>Green Energy - Solar Smiles</b>			
1	Solar panels and installation	1,200,000.00	9,230.77
2	Rechargeable batteries	150,000.00	1,153.85
Subtotal		1,350,000.00	10,384.62
<b>Inbuilt Waste Management System - Waste to Wealth</b>			
1	Waste segregation bins	50,000.00	384.62
2	Composting system	40,000.00	307.69
3	Creative reuse materials and projects	40,000.00	307.69
Subtotal		130,000.00	1,000.00
<b>Awareness and Volunteering</b>			
1	Cleanup drive supplies	70,000.00	538.46
2	Environmental education materials	300,000.00	2,307.69
Subtotal		370,000.00	2,846.15
<b>Conservation and Strategic Afforestation</b>			
1	Native tree saplings	100,000.00	769.23
2	Tree planting tools and supplies	30,000.00	230.77
Subtotal		130,000.00	1,000.00
<b>Eco-friendly Building Improvements</b>			
1	Sustainable building materials	8,000,000.00	61,538.46
2	Natural ventilation and lighting	200,000.00	1,538.46
3	E-Library and Computer	800,000.00	6,153.85
Subtotal		9,000,000.00	69,230.77

Community Involvement - Green Community			
1	Allowance for volunteers	50,000.00	384.62
2	Community events	300,000.00	2,307.69
Subtotal		350,000.00	2,692.31
Sustainable Agriculture			
1	Vegetable garden setup	70,000.00	538.46
2	Compost from waste management system	30,000.00	230.77
Subtotal		100,000.00	769.23
Resource Conservation - Sustainable Living Lab			
1	Water-saving fixtures	50,000.00	384.62
2	Energy-saving practices	20,000.00	153.85
Subtotal		70,000.00	538.46

### Summary Table

SN	Item	Estimated Cost (NPR)	Estimated Cost (USD)
1	Green Energy - Solar Smiles	1,350,000.00	10,384.62
2	Inbuilt Waste Management System	130,000.00	1,000.00
3	Awareness and Volunteering	370,000.00	2,846.15
4	Conservation and Afforestation	130,000.00	1,000.00
5	Eco-friendly Building Improvements	9,000,000.00	69,230.77
6	Community Involvement	350,000.00	2,692.31
7	Sustainable Agriculture	100,000.00	769.23
8	Resource Conservation	70,000.00	538.46
Total		11,410,000.00	88,461.54

**Annexure 2: Annual Operating Budget**  
**(Exchange Rate: 1 USD = 130 NPR)**

SN	Description of Expense	Cost (NPR)	Cost (USD)
<b>Cost of operating the orphanage</b>			
1	Legal and Compliance	170,000.00	1,307.69
2	Repair and Maintenance	355,000.00	2,730.77
3	Salaries	1,692,000.00	13,015.38
4	Pocket Money	50,000.00	384.62
5	Miscellaneous	75,000.00	576.92
<b>Provision of Support to Children</b>			
1	Food	3,304,180.00	25,416.77
2	Electrical, Communication and Utilities	354,000.00	2,723.08
3	Entertainment and Fun Activities	170,000.00	1,307.69
4	Festival Expenses	240,000.00	1,846.15
5	Transportation	402,000.00	3,092.31
6	Clothing	820,500.00	6,311.54
7	Cleaning Items	293,490.00	2,257.62
8	Sports and Musical Instruments	65,600.00	504.62
9	Education and Stationery	458,210.00	3,524.69
10	Health	258,600.00	1,989.23
<b>Grand Total</b>		<b>8,708,580.00</b>	<b>66,989.08</b>

**Overall Total (Annexure 1 + Annexure 2)**

Total Estimated Cost (NPR)	Total Estimated Cost (USD)
<b>20,118,580.00</b>	<b>155,450.62</b>

## 11. Benefits for Sponsors

As a valued sponsor of the Mountain Children Home project, you will enjoy a range of benefits that highlight the impact of your support and foster a meaningful connection with our cause:

- 1. Personalized Updates:** Receive regular photographs and updates about the children's progress, allowing you to witness first-hand the positive changes your support is making in their lives.
- 2. Direct Communication:** Enjoy personalized letters or emails from the children, sharing their gratitude and stories. This direct communication creates a personal bond and shows the tangible impact of your contributions.
- 3. Educational Reports:** Stay informed about the children's academic achievements with quarterly educational reports. These reports provide insight into their educational progress and overall development.
- 4. Activity Reports:** Get updates and photographs of the children participating in extracurricular activities, such as sports, arts, and community events. This will showcase the holistic development fostered by your support.
- 5. Facility Visits:** You are welcome to visit the Mountain Children Home at any time. Witness the improvements made possible by your sponsorship and see the difference your support has made in person.
- 6. Regular Newsletters:** Receive copies of our newsletter, which includes updates on our projects, events, and success stories. This keeps you informed about the ongoing progress and achievements of the home.
- 7. Recognition:** Your sponsorship will be acknowledged through our project materials, reports, and events. We highlight our sponsor's contributions to show appreciation and recognize their support.
- 8. Community Impact:** Your sponsorship directly benefits the lives of orphaned and abandoned children, providing them with a safer, nurturing environment and opportunities for growth.
- 9. Environmental Operation:** Be associated with a project that emphasizes sustainability and climate resilience. Your support will contribute to our green initiatives, demonstrating your commitment to environmental responsibility.
- 10. Long-Term Partnership Opportunities:** Explore opportunities for ongoing collaboration with Mountain Children Home and local community groups. Your involvement can lead to long-term partnerships that extend beyond financial support.

By supporting Mountain Children Home, you are investing in a brighter future for vulnerable children while aligning with a cause that values sustainability, community, and holistic development. Together, we can create lasting change and build a better world for these deserving children.

## 12. Conclusion:

The Mountain Children Home initiative represents a transformative step towards creating a nurturing, sustainable, and future-ready environment for orphaned and vulnerable children. By integrating climate-resilient and environmentally friendly practices, the project not only ensures the well-being of the children but also establishes a model of sustainability that others can emulate.

This project is a call to action for all who believe in the power of change. With your support—be it financial, through volunteering, or partnerships we can achieve lasting impacts, transforming the lives of these children into stories of hope, independence, and dignity. Together, we can ensure they receive the care, education, and opportunities they deserve.

Let us work hand in hand to bring hope and build a brighter future where every child finds a family and a chance to thrive.
